

**REMARKS**

Claims 10-19 are pending in this application. By this Amendment, claims 3-9 are canceled and claims 10-19 are added based on similar features recited in previous claims 3-9. No new matter is added by these amendments. Reconsideration of the application based on the above amendments and the following remarks is respectfully requested.

The Office Action objects to the drawings. The objection is moot because claim 3 is canceled and the pilot elements have been removed from all pending claims.

The Office Action rejects claims 3-9 under 35 U.S.C. § 112, second paragraph. The rejection is moot regarding claims 3-9 because claims 3-9 have been canceled. About new claims 10-19, Applicant has clarified the claims by (1) clarifying that what is being claimed is a hydraulic control system, (2) clarifying how the hydraulic control system operates when used with a mobile machine, (3) removing the pilot elements of previous claim 3, (4) removing the alleged inaccurate alternative language of previous claim 7, and (5) clarifying the independent claims by adding the biasing system, as suggested by the Examiner. Applicant asserts that it is clear and definite to define a control system based on how it operates the structure that it controls.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance of the claims are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

James A. Oliff  
Registration No. 27,075

Rodney H. Rothwell, Jr.
